- Reading Partners Program

College Vision, Mission and Core Values

The vision of the College of Education and Human Sciences (CoEHS) is to be a regional leader in the development of highly competent, critically engaged professionals who enhance the lives of others in an increasingly diverse society.

Committed to the highest standards of academic excellence, our mission is to prepare students to become engaged professionals who are creative thinkers, evidence-informed practitioners, and culturally responsive individuals.

Integrity, collaboration, and social justice are the core values that enable us to fulfill our mission and move toward achieving our vision.

Dean’s List

At the end of each semester, the College of Education and Human Sciences recognizes excellence in scholastic achievement by publishing the Dean’s List. For teacher education majors, eligibility for this recognition requires admission to a teacher education program or pre-education status, but excludes the professional semester.

To be eligible, a student must:

1. be in good academic standing;
2. have a minimum semester GPA of 3.70;

3. have completed at least 12 credits during the semester, with no incompletes, no courses below the 100 level, no repeats, and no Satisfactory/Unsatisfactory registrations (except in degree credit-bearing courses that are offered only on the S/U grading system in which a grade of S has been earned).

Students who meet this standard of achievement receive personal letters of notification and congratulations from the Dean.

Criminal History and/or Caregiver Background Checks

Wisconsin law requires that persons responsible for the care, safety, and security of children and adults will be required to have background checks. In some cases, placement into an externship, professional semester, internship, or practicum will be dependent on the background check results. In some cases, students may be unable to complete field experiences required of their programs because of background check results. In such cases, students should work closely with their advisers and the associate dean to determine the impact these results will have on their academic program. Students are responsible for all costs associated with background checks. Results of checks may be shared with the practicum, professional semester, externship, or internship site.

The College of Education and Human Sciences requires applicants to complete a Background Information Disclosure and a release for a criminal background check. Falsification or omission of information relevant to the questions may constitute grounds for denial of admission to the course(s) or for termination of admission if the falsification or omission is discovered after admission. Further, after submission of the questionnaire, while an application is being considered or while a student in the program, if circumstances occur that would change any response(s), students must inform the College of the changed response(s). For further information, contact the College of Education and Human Sciences Associate Dean’s office (Centennial 3015).

Liability for Health Care Expenses

All expenses associated with health surveillance and care are borne by the student unless the Student Health Service specifically indicates otherwise. Students are not covered by health or accident insurance by UW-Eau Claire, the practicum facility, or the practicum institution. In addition, workers’ compensation insurance does not cover students. For example, if students suffer a needle stick or are hurt while in practicum, they will need personal health insurance to cover medical bills.

Teacher Education

The programs in teacher education offered in the College of Education and Human Sciences are fully approved by the Wisconsin Department of Public Instruction.

Bachelor’s Degree Programs

The University offers bachelor’s degrees to teacher education candidates in Middle Childhood through Early Adolescence (MC-EA), Early Adolescence through Adolescence/Early Childhood through Adolescence (EA-A/EC-A), and Special Education.

Middle Childhood through Early Adolescence (Ages 6-13)

The Bachelor of Science degree in Elementary Education is designed to provide candidates with sufficient breadth and depth in the disciplines taught in middle childhood through early adolescence classrooms to prepare them to work in self-contained classrooms or in multiunit schools. The preparation...
focusing on an understanding of children and the learning processes as well as on effective methods of presentation. A certifiable minor also is required.

**Early Adolescence through Adolescence (Ages 10-21)**

Degree programs in Secondary Education provide specialized preparation through academic majors and minors which have been approved for teacher certification. Students preparing to teach in middle, secondary, or continuing education programs must complete certifiable specializations according to one of the following options:

1. A standard major of 36 credits and a second program that is either a minor of 24 credits or a certificate (12-18 credits); or
2. Two standard majors of 36 credits each; or
3. A comprehensive major of 60 or more credits.

A list of certifiable majors and minors is found in the section of this catalog devoted to the Department of Education Studies.

NOTE: With option 1, the student may elect a certifiable minor, but a certifiable minor is not required.

**Early Childhood through Adolescence (Ages 6-21)**

Programs are offered which prepare teachers to work with children at all grade levels in art, foreign languages, music, physical education, and theatre arts.

**Special Education**

The Bachelor of Science degree in Special Education provides graduates with professional abilities in educational assessment, staffing, programming, and teaching children and youth with disabilities. Teacher preparation is offered in the areas of cognitive disabilities, emotional/behavioral disabilities, learning disabilities, and unified early childhood: special education and regular education. Various combinations of teacher certification in special education and middle childhood through early adolescence regular education are also available.

**Graduate Programs**

Teacher and other school personnel programs are offered at the graduate level in professional development, special education, reading, communication sciences and disorders, school psychology, library science, and social work (Madison-Eau Claire program).

**Non-degree Programs and Additional Certification Programs**

Non-degree programs leading to teacher certification in any of the fields of study offered in baccalaureate and graduate programs can be arranged for candidates who hold a bachelor’s or advanced degree. Due to enrollment limitations, a small number of students are accepted in non-degree and second degree programs.

**Directed and Independent Studies**

Many opportunities are available for students to study, independently or in small groups, problems and topics in education which may not be included or explored in depth in regular course offerings.

Directed studies for groups can be arranged by departments and offered as special courses, either on campus or in off-campus settings. Those interested in directed studies should consult with a department chair.

Independent study, through a student-initiated procedure in which a unit of study is described and approved prior to enrollment, allows a student to earn one to three credits for each such educational experience. Those interested in independent study should obtain appropriate forms in department offices.

Independent and directed study should not be used as a way of taking courses which are approved as regular offerings in the College.

**International Education**

Students are invited to participate in exchange programs sponsored by the Center for International Education. In the sophomore, junior, and senior years, study abroad programs offer students opportunities to visit another country and take courses on the host campus that will fulfill UW-Eau Claire requirements.

Students are also encouraged to consider completing part of their student teaching experience in classrooms in a variety of countries. Exchange student teaching programs are available during the fall and spring semesters through Educators Abroad and meet Department of Public Instruction requirements. Students must complete one student teaching placement in Wisconsin and then complete an additional placement in another country, following its academic calendar. In other words, students may not be finished with their overseas student teaching placement in time for graduation ceremonies at UW-Eau Claire.

Students interested in any of these international studies programs should contact the Center for International Education (Schofield 3) or the Field Experience, Licensing and Certification Office, Centennial 3102.

**Immersion Experiences**

Students are invited to participate in specially arranged student teaching experiences and other field experiences in a variety of settings including the Milwaukee Public Schools, and the Aldine School District in Houston, Texas. Students interested in these opportunities will gain experience working in multicultural and multi-ethnic districts. Interested students should contact the Field Experience, Licensing and Certification Office, Centennial 3102, for details.

• Cognitive Behavioral Disabilities (CD) 1-12 Certificate
• Emotional Behavioral Disabilities (EBD) 1-12 Certificate

Teacher Education Requirements
Program and Degree Requirements

University Requirements
All candidates for teacher education baccalaureate degrees in the College of Education and Human Sciences must fulfill the minimum requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

College Requirements for Teacher Education
All candidates for teacher education baccalaureate degrees must also meet the following:

1. Liberal Education requirements in the College of Education and Human Sciences.
2. Grade point requirements: undefined
3. Residency requirements: undefined
4. Criteria and requirements for Professional Programs and for Admission to the Professional Semester.
5. Specific requirements of programs offered in the College of Education and Human Sciences. (See the departmental sections of this catalog.)

Degree Planning
A degree plan indicates how a student expects to meet the curricular requirements for a degree. Degree plan forms for the various programs offered in the College may be obtained in department offices. These plans are for students’ use in planning programs with their advisers. The plans are supplemented by the Registrar’s Office Degree Audits used for official evaluation of academic progress.

Human Relations/Cultural Diversity/Service-Learning Requirements
Students in teacher education majors shall meet the Wisconsin Department of Public Instruction’s Human Relations Requirement and the UW-Eau Claire Cultural Diversity Requirement by completing ES 385/ES 585, Social Foundations: Human Relations, which includes completion of a minimum of 30 hours of direct contact fieldwork with racial/ethnic/cultural minorities different from themselves, people from low-income backgrounds, and people with disabilities. This fieldwork satisfies the University Service-Learning Requirement. Students are expected to accrue 15 of the 30 hours of volunteer/fieldwork prior to the semester they are enrolled in ES 385/ES 585.

Admission to the Professional Education Semester
The “professional semester” is defined as the senior semester in which a student is enrolled in the field experience of student teaching or internship.

Filing Applications
Students who plan to enter the professional semester during the fall semester of the next academic year must file an application available at an education “professional semester” meeting held each November. Students who plan to enter the professional semester during the spring semester of the next academic year must file an application at an education “professional semester” meeting held in April. Dates for these meetings will be advertised widely and posted across campus.

Students are encouraged to submit their applications as soon as possible after the meeting. Considerable time is required to process each application —that is, to determine eligibility, to make arrangements with schools for an appropriate field experience assignment, and to allow for introductions, orientations, and, in some cases, interviews. Students who file early will benefit by the careful consideration that can be given to their requests; the later an application is received, the fewer the placement assignments and choices still available. Failure to file an application on time may result in a delay of the professional semester.

Transfer and Special Students
No transfer or special student can enter the professional semester until after a full semester of residence and after earning a minimum of 15 credits at UW-Eau Claire. Senior transfer students enrolling in September must file an application available at an education professional semester. Students who plan to enter the professional semester during the fall semester of the next academic year must file an application at an education professional semester by December 1 for the following fall.

Criteria for Admission
No application for admission to the professional semester will be processed in the case of transfer and special students unless a full semester of residence and a minimum of 15 credits have been earned at UW-Eau Claire.

Factors to be considered in the application for admission to the professional semester are:

1. Criteria for admission to a professional program have been met.
2. Good academic standing, as defined in the catalog section on Academic Standing and Progress.
3. A minimum of 90 credits completed prior to the professional semester.
4. Completion of courses which are prerequisite to field experience. For each program, a list of prerequisite courses is available in the Field Experience, Licensing and Certification Office, Centennial 3102.
5. Approval of the major and minor department(s).
6. Resident and total GPAs of at least 2.75; GPAs of at least 2.75 in the major(s) and minor(s) intended for certification; and a 2.75 or higher GPA based on a combination of all course work in the major, minor (where certifiable), and professional education courses, including PSYC 260 or PSYC 261. All college-level courses attempted by the student are included when major, minor, and total GPAs are determined for admission to the professional semester and for graduation.
7. Passing score(s) on appropriate Praxis II content test(s). Foreign language majors must earn passing scores on the ACTFL. Information on Praxis II and
the ACTFL is available through Academic Testing, Schofield 226, and at www.ets.org/praxis (http://www.ets.org/praxis).

For placements in the fall semester, the last test date for passing the Praxis II Content Exam or ACTFL is the preceding January date.

For placements in the spring semester, the last test date for passing the Praxis II Content Exam or ACTFL is the preceding August date.

For placements in the summer session, the last test date for passing the Praxis II Content Exam or ACTFL is the preceding November date.

8. Completion of the 30 hour Human Relations Fieldwork requirement.

9. Evidence of freedom from tuberculosis. Tests are provided by Student Health Services or must be provided by the student when filing for the professional semester.

10. Approval by the appropriate departments in the Colleges of Education and Human Sciences and Arts and Sciences.

11. Proficiency in speaking and listening demonstrated in CJ 201 or CJ 202, or CJ 203, or CJ 205 or a public speaking/communication course.

**Deadline for Meeting Criteria**

For placements in the fall semester, criteria for which the student is responsible (GPA, TB test, Praxis II Content Test[s], ACTFL and PSYC 260 or PSYC 261) must be met by March 1 of the preceding semester.

For placements in the spring semester, these criteria must be met by October 1 of the preceding semester.

For placements in the summer session, these criteria must be met by February 1 of the preceding semester.

Failure to meet criteria on time may result in a delay of the professional semester.

**Licensure to Teach**

**Criteria for Recommendation for Licensure:**

1. Completion of a baccalaureate degree.

2. Completion of an approved teacher education major, including Gate 3 portfolio approval. (needed for areas with no edTPA)

3. A 2.75 or higher GPA in the major and minor (where certifiable) and in the combination of all course work in the major, minor (where certifiable), and professional education courses exclusive of student teaching. All college-level courses attempted by the student except student teaching are included when major, minor, and professional education GPAs are determined for recommendation for licensure.

4. Completion of student teaching courses with a mark of S, or grade of B- or above in departments where a letter grade is assigned.

5. A passing score on a Praxis II content examination in each certification major, minor, and concentration, unless the field is exempted by the State Superintendent. Foreign language majors and minors must earn passing scores on the ACTFL. The standardized examination and passing score shall be determined by the State Superintendent. All MCEA, SPED majors and minors, Early Childhood and Reading Teacher (316) and Reading Specialists (317) must earn a passing score on the FORT. In addition, a completed edTPA must be submitted for national scoring. Passing scores are required for licensure in Fall 2016 and thereafter.

**Wisconsin Application**

College of Education graduates who desire to teach in Wisconsin, will apply for licensure using the WI Department of Public Instruction’s (DPI), ELO (Electronic Licensing Online) http://tepdl.dpi.wi.gov/licensing/elo following all steps listed on the site including fingerprinting if applicable.

Upon completion of all program, University and WI Department of Public Instruction teaching requirements, information will be forwarded to WI DPI verifying this completion (including the completion of all required tests), a degree and any add-on certifications have been awarded, and certifications the teaching candidates are eligible for with licensure. Candidates will then apply for their 5 year Initial License, using a credit card (debit cards are not accepted) and after processing, will access their account and print their own license.

**Out-of-state Applications**

It is recommended that graduates seeking licensure to teach in states other than Wisconsin request application forms and instructions from the Department of Education of the state in which licensure is desired. Inquiry early in the period of professional preparation is advisable. In most cases, an official transcript of credits must accompany the completed application form; additional tests or course work may be required. Therefore, it is imperative to check requirements of other states. Wisconsin and most other states require institutional endorsement. In general, candidates will be able to obtain licenses in other states; however, these licenses may be issued with stipulations. It is the student’s responsibility to find out licensing requirements of other states. The university prepares teachers for certification in Wisconsin.

**Human Sciences Departments**

**Specific Degree Requirements**

Specific requirements for some human science degrees are published in conjunction with the Catalog description of the major leading to the degree, with specific courses required in several Liberal Education outcomes.

**Bachelor of Science Degree in the College of Education and Human Sciences**

Candidates for the degree of Bachelor of Science from a human sciences department must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements. (see University Graduation Requirements)

**General Information**

**Placement Tests.** The mathematics/foreign language placement tests are given during the orientation periods for new freshmen and transfers. Further information about the foreign language or the mathematics tests is available from the chair of the appropriate department.

**Laboratory Science Courses.** The following have been designated as fulfilling the requirements for laboratory science courses in the human sciences departments:

Diploma Requirements

University Graduation Requirements. All candidates for diplomas must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements.

Human Sciences Graduation Requirements: Grade Point Averages. All degree candidates must earn minimum resident and total GPAs of 2.00 or higher in both the major and the second program if one is required. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the second program are computed similarly.

Major-Minor and Major-Certificate Requirements. Each candidate for a baccalaureate degree must present one of the following:

- Comprehensive major (at least 59-60 credits)
- Standard major (at least 36 credits) plus one of the following:
  - Another standard major (at least 36 credits), or
  - A minor (at least 24 credits), or
  - A certificate (12-18 credits)

No minor or certificate is required with a Comprehensive Major or with two majors of 36 credits each.

Certain degree programs which include Comprehensive Majors may require more than the minimum of 120 credits for graduation.

Planning a Degree Program

Declaring a Major/Minor Program

To officially declare or change to a new major or minor, a student must go to the office of the department of the intended major or minor. Specific instructions can be found at www.uwec.edu/registrar/student/chgofmajor.htm (http://www.uwec.edu/registrar/student/chgofmajor.htm).

All students are encouraged to obtain a new degree audit during this process. A new adviser will be assigned in the department of the new major or minor. Any approved petitions/waivers for the old major or minor will not be carried over to the new major or minor. Students must resubmit and have these petitions approved again by the new major or minor department.

A topical minor is available and the requirements are listed below.

Education (Code 610-453)

A Topical Minor is composed of 24 semester credits selected by the student to meet the student’s own interests and scholarly objectives. Courses for the minor may be chosen on the basis of a coherent theme, an historical period, a definable professional need, or a complementary relation to the student’s major.

The Topical Minor is not intended to be used to duplicate any major or minor offered as a regular program within the UW System. The student should find a faculty member willing to direct the topical minor and work closely with that adviser to design the minor.

The Topical Minor must include courses from at least two departments, with no more than 15 credits from any one department and no more than six credits from the department of the student’s major. Courses included in the major cannot be applied to the minor. At least 12 of the 24 credits must be earned in courses numbered 300 or higher, and at least 12 of the 24 credits must be earned in College of Education and Human Sciences courses. The remaining credits can be earned from any college within the University. To propose a topical minor students should complete an e-form located on the College of Education and Human Sciences website.

Special Curricular Offerings

Special Topics Courses

The Departments of Kinesiology and Social Work offer courses in which the topic for study may vary from semester to semester, often focusing on a contemporary issue or taking an innovative approach to a traditional subject. Students and faculty members are invited to recommend topics to the department. Final approval of each semester’s offerings rests with the Academic Curriculum Committee of the College of Education and Human Sciences. Topics are announced in the Class Schedule for the semester.

Restrictions: A total of no more than nine credits in Special Topics courses may be applied toward graduation. Special Topics courses may not be applied toward completion of the Liberal Education requirements. The Department of Social Work may further restrict the application of such credits to their majors.

Directed Study Courses

Courses numbered 395 or 495, offered by several departments under various titles, are designed to permit individual students or groups of students to undertake special projects related to their educational interests and goals.

Eligibility: Registration for a Directed Study course requires the permission of the faculty member who agrees to supervise the project and of the department offering the course. Any further conditions of eligibility are established by the department and published as part of the course description.

Restrictions: A total of no more than six credits of Directed Study courses may be counted toward graduation. Directed Study courses may not be applied toward completion of the Liberal Education requirements. Departments also may restrict the application of such credits to their majors and minors.

Procedures: Permits to register may be obtained from department offices. When registration has been completed, the department will file a copy of each project with the Associate Dean of the College, Centennial Hall 3015.

Independent Studies

Under the course numbers 399 and 499, each department in the human sciences department provides advanced students with opportunities for independent study in fields where they have already demonstrated their competence.

Eligibility: Independent Study courses are open only to juniors and seniors. A student with a departmental major and/or minor may elect an Independent Study in the department of the major or of the minor, provided the student has at least 3.00 resident and total GPAs in that department. A student with a multidisciplinary major may elect an Independent Study in any department which has courses required in the major, provided the student has at least 3.00 resident and total GPAs in the major and has earned a minimum of six credits with resident and total GPAs of at least 3.00 in the department in which the Independent Study is elected.
Application Procedure
Formal application to the professional program must be made. The number of students admitted to a program is limited by resources available. Not everyone who applies can be guaranteed admission. See the appropriate section of this catalog for criteria upon which the departmental recommendation will be based. Note that minimum criteria for a department may exceed the minimum criteria listed above.

Students who do not meet all the criteria listed above or who do not receive a favorable departmental recommendation may reapply during a later application period.

Special or Transfer Students
Special students and transfer students who desire to be admitted to the Teacher Education Program in the College of Education and Human Sciences should inform the Admissions Office upon application for admission to the University. They should indicate their area of interest. These students are expected to have a minimum GPA of 2.75.

Retention in Professional Education Programs
Students who are in good standing in the University but are having difficulty meeting the College of Education and Human Sciences criteria for professional education programs are strongly advised to seek the counsel of their adviser and/or the Associate Dean of the College of Education and Human Sciences regarding their continuation in the program. A student may continue in the program while in good standing or after receiving an Academic Warning. (See Academic Standing and Progress.) However, if placed on probation or if readmitted after a first suspension, the student may continue in the program only upon recommendation of the department concerned (Education Studies or Special Education). After a second suspension, the student may not continue in the professional education program.

Internships and Field Practicum Courses
Some type of internship or clinical experience is an integral part of programs in Athletic Training, Communication Sciences and Disorders, Kinesiology: Human Performance, and Social Work. Therefore, students in these programs must provide their own transportation to and from field experiences and internships. Many field experiences may require travel to other communities. All costs associated with transportation to and from field experiences are the responsibility of the student.

Departmental Honors Programs
The Department of Social Work and the Department of Communication Sciences and Disorders have established a Departmental Honors Program for their majors. See the departmental listings for requirements.

Admission to Professional Education Programs
Criteria for Admission
Formal application to the professional education program must be made by October 1 for spring admission or March 1 for fall admission. Only students who meet all criteria listed below should apply.

1. Approval by the appropriate department in the College of Education and Human Sciences. See Education Studies and Special Education sections of this catalog for criteria to be considered in making these recommendations.
2. Pre-education status.
3. Minimum total GPA of 2.75 on a minimum of 30 credits and sophomore standing. Admission is competitive; thus the minimum GPA does not assure admission to a professional program in education.
4. Completion of University Writing Requirement with a grade of C or above.
5. Good academic standing.
6. Passing scores on Praxis I Pre-Professional Skills Tests of mathematics, reading, and writing or passing scores on ACT Test. Passing scores on Praxis I in Wisconsin are: Mathematics 173, Reading 175, and Writing 174. Passing scores on ACT are an overall score of 23 and 20 on reading, math, and English. ACT scores are only good for a period of five years prior to student teaching. Beginning September 1, 2014 the requirement will be passing scores on Praxis I Pre-Professional Skills Test or passing scores on Praxis Core Academic Skills Test for Educators (CORE) or passing scores on ACT Test. Passing scores in Wisconsin for the CORE are Math 150, Reading 156, and Writing 162. Students who have not met the minimum G.P.A. requirement or passed all three sections of the Pre-Professional Skills Test or all three sections of the CORE Test or who do not have qualifying scores on the ACT for admission could seek to be admitted through a waiver/exceptions policy. Please see your adviser for details. Information on required tests is available through Academic Testing, Schofield 226.
