

# UNIVERSITY HONORS PROGRAM AND COURSES

## University Honors Program

The University Honors Program cultivates a challenging and supportive learning community that encourages highly motivated, high-potential students to develop fully in their distinctive abilities, creating a foundation for sustained intellectual, professional, and personal growth. The Honors Program at UW-Eau Claire offers a rigorous and evolving curriculum that assists students in the pursuit of creativity, innovation, discovery, and engagement across disciplines. Honors students often have significant responsibility for the design and execution of learning activities within their honors coursework, and many honors students engage in undergraduate research that is uniquely matched to their experiences, skills, and longer-term goals. The program offers an enhanced education, enabling students to integrate honors liberal education courses, honors interdisciplinary seminars, honors work in their major and minor programs, and honors experiential learning opportunities into a high-value whole.

Honors at UW-Eau Claire has two components: University Honors and Departmental Honors. Students may graduate with honors by completing one component or both. Honors Program participation and completion are documented on students' university records, including transcripts.

**University Honors.** In small classes designed to stimulate and challenge high-achieving, highly motivated students, and in special sections of regular university courses, honors students gain opportunities to grow intellectually, to explore new interests, and to collaborate with faculty and peers from across the university.

**Admission to the University Honors Program.** For details about current admissions policies, please consult the Honors Program website. (<https://www.uwec.edu/academics/university-honors-program/>) There are several ways to gain admission to the University Honors Program. (1) Incoming first-year students are invited to participate each fall semester based on ACT or SAT scores and high school class rank. (2) Students admitted to UW-Eau Claire with a strong academic profile that does not meet one or more of the automatic admissions benchmarks, including students who do not submit ACT or SAT scores, are frequently considered for admission to the Honors Program through a holistic review process. Any admitted student may also request their application to be holistically reviewed by contacting the Honors Program office. (3) First-year students who have completed at least 14 credits at UW-Eau Claire during the fall semester may be invited to Honors during spring semester based on their GPA and, where available, ACT or SAT scores. (4) Students who are highly motivated to join the Honors Program may petition for admission. Contact the Honors Program office for more information. (5) Transfer students who were in good standing with an accredited honors program or college at their previous institution are eligible to join the Honors Program at UW-Eau Claire. Honors credits earned at the previous institution are evaluated by the UW-Eau Claire Honors Director to determine how many credits can be applied to UW-Eau Claire Honors Program requirements.

**Graduation Requirements.** A student may graduate with University Honors by meeting the following requirements:

1. Attainment of a resident and total GPA of at least 3.50.
2. Completion of a one-credit first-year seminar, HNRS 100, or an honors first-year experience course.
3. Completion of the 24-credit honors distribution requirement, in one of the three manners listed below, with at least two courses taken at the 300/400

level. Students may complete this distribution requirement by taking any combination of honors colloquia, honors sections of departmental courses, or honors special experience courses (study abroad, directed study, independent study, honors thesis, and internships). Honors courses frequently meet liberal education, major, or minor requirements in addition to fulfilling requirements for University Honors.

- a. Completion of at least 24 credits of honors coursework.
  - b. Completion of at least 21 credits of honors coursework *and* one of the following: HNRS 410, HNRS 420, HNRS 430, or the completion of a qualifying high-impact experience.
  - c. Completion of at least 18 credits of honors coursework *and* two of the following: HNRS 410, HNRS 420, HNRS 430, or the completion of a qualifying high-impact experience.
4. Completion of HNRS 400 (one credit).

Honors Program courses may not be audited or taken for a satisfactory/unsatisfactory grade.

A course transferred from a high school dual-enrollment college program or test score (AP, IB, or CLEP) may be substituted as honors course credit, if minimum scores are met (a qualifying dual-enrollment course with an A or A-, an AP score of at least 4, an IB score of at least 5, or a B-level CLEP score). No more than one course, for a maximum of 5 credits, may be substituted for honors course credit.

**Flexible Credits.** To meet the honors coursework requirement, honors students have the option to take honors colloquium or honors sections of department courses, complete up to 9 credits of honors contracts, use credits obtained while completing departmental honors, and more. With HNRS 410, 420, and 430, students have the opportunity to earn honors credit for leadership and teaching experiences. Students can also earn honors credit for qualifying high-impact experiences including substantial undergraduate research experiences, semester-long internships, case competitions, and study abroad. For more information on these options, please consult the honors office at [honors@uwec.edu](mailto:honors@uwec.edu).

An appropriate designation will be placed on a student's record upon completion of all Honors Program requirements. However, credits earned in honors courses meet graduation requirements whether or not the program is completed. A current schedule of honors courses is available on the Honors Program website (<https://www.uwec.edu/academics/university-honors-program/academic-offerings/honors-courses/>).

**Department or College Honors.** Twenty-five departments and programs offer students the opportunity to earn an honors distinction within their program of study, enabling students to strengthen skills and distinguish themselves within their major. Currently, departmental honors programs are available in Accounting and Finance, Biology, Business Administration, Chemistry and Biochemistry, Communication Sciences and Disorders, Computer Science, Criminal Justice, Economics, English, Geography and Anthropology, Geology and Environmental Science, Health Care Administration, History, International Business, Latin American and Latinx Studies, Management and Marketing, Materials Science and Engineering, Mathematics, Music and Theatre Arts, Philosophy and Religious Studies, Physics, Political Science, Sociology, and Spanish. In many cases, credits earned in a departmental honors program can be applied to University Honors Program requirements.

For information on departmental honors programs, consult department descriptions in this catalog or the University Honors Program website (<https://www.uwec.edu/academics/university-honors-program/academic-offerings/departmental-honors/>).
