UNIVERSITY HONORS PROGRAM AND COURSES

University Honors Program
The University Honors Program enables high-achieving, high-potential, highly motivated students to go as far in their intellectual and professional development as possible in four years of undergraduate study. The program offers a dynamic, inclusive, innovative learning community in which students and faculty from every university college and program learn and work together closely in an atmosphere of common intellectual enterprise, mutual respect, and the free exchange of ideas. The program offers an enhanced education, enabling students to integrate Honors Liberal Education courses, Honors interdisciplinary seminars, Honors work in their major and minor programs, and Honors experiential learning opportunities into a coherent, individualized, high-value whole.

Honors at UW-Eau Claire has two components: University Honors and Departmental Honors. Students may be graduated with Honors by completing one component or both. Honors Program participation and completion are documented on students’ University records.

University Honors. In small classes designed to stimulate and challenge students of high ability and high potential, and in special sections of regular university courses, honors students are provided opportunities for close interaction with faculty and with other honors students.

Admission to the University Honors Program. There are several ways to gain admission to the University Honors Program. (1) Incoming first-year students are invited for each fall semester based on scores achieved on either the ACT or SAT and their academic standing in their high school graduating classes. (2) Students admitted to UW–Eau Claire in their first fall semester with at least a 26 ACT composite score, rank in class of top 10% or higher, or 3.75 high school GPA will automatically be considered for admission to Honors in a holistic review process. (3) Students who have completed at least 14 academic credits at UW-Eau Claire may be admitted after demonstrating superior academic performance including attaining at least a cumulative 3.66 college GPA (which will include college credits and grades earned elsewhere). (4) Students highly motivated to do Honors work may petition the University Honors Council for admission. Consult the Director of the University Honors Program for more information.

Requirements. A student may be graduated with University Honors by meeting the following requirements:

1. Attainment of a resident and total GPA of at least 3.50.
2. Completion of one-credit first-year seminar, HNRS 100, or an Honors FYE (First-Year-Experience course).
3. Completion of at least 24 credits of Honors colloquia and Honors electives or completion of at least 21 credits of Honors colloquia and Honors electives and either HNRS 410 or HNRS 420. At least two (2) of the Honors colloquia/Honors elective courses completed must be at the 300-level or above. These courses may be used to meet Liberal Education, major, or minor requirements as well as the requirements of the University Honors Program.
4. Completion of HNRS 400 (one credit).

Honors Program courses may not be audited or taken for a satisfactory/unsatisfactory grade.

One course transferred with an AP score of at least 4, or an IB score of at least 5, may be substituted for one of the required Honors courses.

An appropriate designation will be placed on a student’s record upon completion of Honors courses and of the program. Credits earned in Honors courses meet graduation requirements whether or not the program is completed. A current schedule of available Honors courses may be obtained from the Director of the University Honors Program or on the Honors Program website: https://www.uwec.edu/academics/university-honors-program/academic-offerings/honors-courses/.

Department or College Honors. A growing number of departments campus-wide offer students the opportunity to earn honors in their major programs. These programs include the departments of Accounting and Finance, Biology, Chemistry, Communication Sciences and Disorders, Computer Science, Economics, English, Geography and Anthropology, Geology, History, Management and Marketing, Materials Science, Mathematics, Music and Theatre Arts, Philosophy and Religious Studies, Physics, Political Science, Social Work, and Sociology. In addition, the programs in Criminal Justice and in Spanish also offer Honors programs.

For information on departmental or college honors programs, consult department or college descriptions in this catalog or inquire at department or college offices, or get in touch with the Director of the University Honors Program.
