COURSE DESCRIPTIONS

Course Numbering System

The first digit in a course number indicates the level of the course:

1-99 courses that cannot be counted toward minimum degree requirements
100-199 courses primarily for freshmen
200-299 courses primarily for sophomores
300-499 courses open to juniors and seniors
500-699 junior-senior courses approved for graduate credit
700-799 courses open only to graduate students
800-899 course open only to Doctor of Nursing Practice (DNP) students

1 Graduate students in such courses are required to meet expectations beyond those required of undergraduates. These expectations will vary and may include, but are not limited to: additional readings, oral presentations, additional or more sophisticated experiments or research, and additional written work. Students who have taken a course at the 300- or 400-level may not include that course at the 500- or 600-level in a graduate program, except in the case of special topics courses when the topic is not the same as that taken at the undergraduate level or at the discretion of the program advisor.

2 Students approved for participation in an approved dual bachelor's and master's degree program are eligible to enroll in specific 700-level courses.

Cross-listed Courses

Courses are cross-listed when the curriculum is interdisciplinary in nature and the course is offered through multiple departments. That is, two course listings identify the same courses. The listings will have identical numbers—only the course prefix varies.

Some certifications, licensures, and programs may require a specific number of credits from certain curricular disciplines. Therefore, students should review program constraints before enrolling for cross-listed courses.
