Placement and Competency Information

Placement and Competency Tests
The UW System Mathematics Placement Test and the Foreign Language Placement Tests are given during the orientation periods for new freshmen and transfers. Further information about placement or competency tests is available from the chair of the appropriate department or the Academic Testing Office (https://www.uwec.edu/academics/academic-support/advising/testing/placement-testing/).

Registration Requirements

1. All students in the College of Arts and Sciences (undeclared students, students with a declared Arts and Sciences major, or pre-professional students) must successfully complete the University Writing Requirement. This requirement should be completed by the semester in which their total semester credits will equal or surpass 60 credits.
2. All students in the College of Arts and Sciences (undeclared students, students with a declared Arts and Sciences major, or pre-professional students) must successfully complete the appropriate Mathematics Competency requirement for the baccalaureate degree program being pursued. This requirement should be completed by the semester in which their total semester credits will equal or surpass 60 credits.
3. All students who have not completed the Bachelor of Science Mathematics Competency will be considered Bachelor of Arts candidates and must demonstrate competency in a foreign language at the level of a 102 course (i.e., two semesters of college work). This requirement should be completed by the semester in which their total semester credits will equal or surpass 60 credits.
4. All students who transfer to UW-Eau Claire with 59 or fewer earned semester credit hours should meet the appropriate requirements listed in 1, 2, and 3 above as appropriate before registering for any semester or session after they have earned 60 semester credit hours including credits in progress.
5. All students who transfer to UW-Eau Claire with 60 or more earned semester credit hours and who intend to register as a student in the College of Arts and Sciences (undeclared students, students with a declared Arts and Sciences major, or pre-professional students) should meet the requirements listed in 1, 2, and 3 before registering for any semester or summer session.

Planning a Degree Program
To officially declare or change to a new major, minor, or certificate, a student must go to the Advising, Retention + Career Center (http://www.uwec.edu/connect/advising/).

All students are encouraged to obtain a new degree audit during this process. Academic and faculty advisors will be assigned as appropriate.
Joint Degrees with Professional Schools

The Board of Regents has authorized the University to grant the Bachelor of Science or Bachelor of Arts degree to students who have completed three years of residence at UW-Eau Claire and who complete the requirements for a Liberal Arts degree after transfer to a professional school. A maximum of 32 semester credits from the professional school may be applied toward the baccalaureate degree. For information, contact the College of Arts and Sciences Dean’s office (Schofield 220).

Dean’s List

At the end of each semester, the College of Arts and Sciences recognizes excellence in scholastic achievement by publishing the Dean’s List. To be eligible, a student must:

1. be in good academic standing;
2. have a minimum semester GPA of 3.70;
3. have completed at least 12 credits during the semester, with no incompletes, no courses below the 100 level, no repeats, and no Satisfactory/Unsatisfactory registrations (except in degree credit-bearing courses that are offered only on the S/U grading system, in which a grade of S has been earned).

Students who meet this standard of achievement receive electronic notification and congratulations from the Dean’s Office.

Special Curricular Offerings

Special Topics Courses (291, 391, 491)

Under the numbers 291, 391 and 491, several departments and interdisciplinary programs offer courses in which the topic for study may vary from semester to semester, often focusing on a contemporary issue or taking an innovative approach to a traditional subject. Students and faculty members are invited to recommend topics to appropriate departments/programs. Departments/programs provide basic course information as part of the schedule building process. Topics are announced in the Class Schedule for the semester.

Restrictions: A total of no more than nine credits in Special Topics courses (291, 391, 491) may be applied toward graduation. Special Topics courses may not be applied toward completion of the Liberal Education Core requirements. Departments/programs may further restrict the application of such credits to their majors, minors, and certificates.

Directed Studies (395, 495)

Courses numbered 395 or 495 (and MUSI 496), offered by several departments and interdisciplinary programs under various titles, are designed to permit individual students or groups of students to undertake special projects related to their educational interests and goals.

Eligibility: Registration for a Directed Studies course requires the permission of the faculty member who agrees to supervise the project and of the department/program offering the course. Any further conditions of eligibility are established by the department/program and published as part of the course description.

Restrictions: A total of no more than six credits of Directed Studies courses may be counted toward graduation. Directed Studies courses may not be applied toward completion of the Liberal Education Core requirements. Departments/programs also may restrict the application of such credits to their majors, minors, and certificates.

Independent Study (399, 499)

Under the course numbers 399 and 499 (and CHEM 497 and HIST 496), departments and interdisciplinary programs in the College of Arts and Sciences provide advanced students with opportunities for independent study in fields where they have already demonstrated their competence.

Eligibility: Independent Study courses are open only to juniors or seniors. A student with a departmental major or minor may elect an Independent Study in the department of the major or of the minor, provided the student has at least 3.00 resident and total GPAs in that department. A student with an interdisciplinary major may elect an Independent Study in any department/program which has courses required in the major, provided the student has resident and total GPAs of at least 3.00 in the major and has earned a minimum of six credits with resident and total GPAs of at least 3.00 in the department/program in which the Independent Study is elected.

Restrictions: Only three credits of Independent Study (399 or 499; CHEM 497; HIST 496) may be elected during any semester. A total of no more than six independent study credits may be counted toward graduation. Independent Study courses may not be applied toward completion of the Liberal Education Core requirements. Departments/programs also may restrict the application of such credits to their majors, minors, and certificates.

Procedures: Registration is initiated through an e-form found on the Registrar’s Office website (https://www.uwec.edu/Registrar/student/stuforms.htm). Approval is required by the professor directing the study and the department chair/program director. When registration has been completed, the Registrar’s Office will file a copy of the project description with the College Dean and in the student’s permanent record.

Internships and Apprenticeships

Internship or apprenticeship experiences can be a valuable component in Arts and Sciences programs. Elective courses designated either as an internship or as an apprenticeship are offered in American Indian Studies, Art, Biology, Chemistry, Communication and Journalism, Computer Science, Criminal Justice, Economics, English, Environmental Public Health, Environmental Studies, Geography, Geology, History, Languages, Latin American Studies, Liberal Studies, Materials Science and Engineering, Mathematics, Music, Philosophy, Political Science, Psychology, Religious Studies, Sociology, Theatre Arts, and Women’s, Gender, and Sexuality Studies.

Departmental Honors Programs

The Departments of Biology, Chemistry and Biochemistry, Computer Science, Economics, English, Geography and Anthropology, Geology, History, Mathematics, Music and Theatre Arts, Philosophy and Religious Studies, Political Science, and Sociology have established Departmental Honors Programs for their majors. The Materials Science Program, as well as majors in Criminal Justice (http://catalog.uwec.edu/undergraduate/arts-sciences/interdisciplinary/criminal-justice-comprehensive-major-ba-bs/) and in Spanish (see the Department of Languages (http://catalog.uwec.edu/undergraduate/arts-sciences/languages/)) also offer an Honors Program. See department/program listings or the interdisciplinary program section for requirements.
Degrees and Curricula

Bachelor of Arts (B.A.) or Bachelor of Science (B.S.)

The B.A. degree and the B.S. degree are differentiated not by the major chosen, but by specific College requirements. For the standard and comprehensive majors listed below, students may elect either the B.A. or B.S. degree.

College of Arts and Sciences Majors

Standard Majors (Liberal Arts):

- American Indian Studies
- Art
- Biology
- Chemistry
- Communication
- Computer Science
- Economics
- English
- French
- Geography
- Geology

- Journalism
- Latin American and Latinx Studies
- Mathematics
- Music
- Philosophy
- Physics
- Political Science
- Psychology
- Public Health
- Religious Studies
- Sociology
- Spanish
- Theatre Arts
- Women’s, Gender, and Sexuality Studies

Comprehensive Majors:

- Actuarial Science-Liberal Arts (Department of Mathematics)
- Art-Liberal Arts
- Biochemistry/Molecular Biology-Liberal Arts (Interdisciplinary)
- Biology-Liberal Arts
- Chemistry-A.C.S.
- Chemistry with Business Emphasis (Department of Chemistry and Biochemistry)
- Computer Science-Liberal Arts
- Criminal Justice-Liberal Arts (Interdisciplinary)
- Geography-Liberal Arts
- Geology-Liberal Arts
- Geospatial Analysis and Technology-Liberal Arts (Department of Geography and Anthropology)
- Materials Science-Liberal Arts
- Mathematics-Liberal Arts
- Music-Liberal Arts
- Neuroscience-Liberal Arts (Interdisciplinary)

Bachelor of Science (B.S.)

Comprehensive Major: Materials Science and Engineering

Bachelor of Liberal Studies (B.L.S.)

Comprehensive Major: Liberal Studies-Liberal Arts (Interdisciplinary)

Bachelor of Fine Arts (B.F.A.)

Comprehensive Major: Art

Bachelor of Music (B.M.)

Comprehensive Major: Music

Bachelor of Science in Environmental Public Health (B.S.E.P.H.)

Comprehensive Major: Environmental Public Health (Watershed Institute for Collaborative Environmental Studies)

College of Arts and Sciences Minors

A standard Liberal Arts minor is offered in each discipline in which a standard Liberal Arts major is available. In addition, a number of interdisciplinary minors are offered by the College of Arts and Sciences. Program descriptions are found in the College of Arts and Sciences Interdisciplinary section or in the noted academic department/program section.

Ancient Studies (Interdisciplinary)

Degree Requirements
Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)
Bachelor of Arts or Bachelor of Science Degree (B.A./B.S.)

University Graduation Requirements. All candidates for degrees must fulfill the requirements for credits, curriculum, GPA, and University residency as specified in the section of this catalog titled University Graduation Requirements (http://catalog.uwec.edu/undergraduate/graduation-requirements/).

College Graduation Requirements: Grade Point Averages. All candidates for degrees in the College of Arts and Sciences must earn minimum resident and total GPAs of 2.00 in the major, the minor, and the certificate. The resident and total GPAs for the major are computed using all attempted credits applicable to the major including those offered by departments other than the major department. The resident and total GPAs for the minor and the certificate are computed similarly.

Major-Minor and Major-Certificate Requirements. A standard major (a minimum of 36 credits) must be supplemented by a minor (a minimum of 24 credits) or by a certificate (12 to 18 credits) to meet graduation requirements for completing a first and second degree program. No minor or certificate is required with a Comprehensive Major (60 or more credits) or with two majors of 36 or more credits each.

Certain degree programs, which include Comprehensive Majors, may require more than the minimum of 120 credits for graduation.

Acceptable academic program combinations are determined at the college level. A major and a minor or a major and certificate or two majors (if available) may not be elected in the same department or program, except in the approved combinations listed here.

College Credits. Earn at least 90 credits in courses offered by the College of Arts and Sciences.

Bachelor of Arts Degree in the College of Arts and Sciences (B.A.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); foreign language competency at the 102 level. Foreign language competency may be met in one of two ways: (1) Achieve a score on the foreign language placement test that qualifies the student to enter the 201-level course in a foreign language. (2) Earn a grade of at least C (not C-) or a mark of S in a 102-level foreign language course (or AIS 112 or AIS 122 / LANG 122 or CSD 103).

Bachelor of Science Degree in the College of Arts and Sciences (B.S.)

Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work); mathematics competency at the MATH 111, MATH 112 or MATH 113 level. Mathematics competency can be met in one of three ways: (1) Achieve a score on the mathematics placement test that qualifies the
student to enter MATH 114. (2) Earn a grade of at least C (not C-) or a mark of S in MATH 111, MATH 112, or MATH 113. (3) Achieve a satisfactory score on the MATH 112 competency test. This test may be attempted no more than two times.
