B. Additional Degree Requirements

A student must fulfill the following degree requirements through general education breadth requirements and/or elective coursework:

1. Depth sequence (two courses of three or more credits each)
2. Three credits of Quantitative Literacy coursework (QL)
3. Three credits of Ethnic Studies coursework (ES)
4. A Laboratory Science course (LS)

IV. General Education Breadth Requirements

A student must complete general education coursework in a variety of different disciplines based on breadth categories established by the UW System shared learning goals. There are six different breadth categories. Each course is limited to only one breadth category.

A. Knowledge of Human Cultures (HC)

Courses focus on analysis of the human condition, culture, and society. This typically includes coursework that requires students to engage with and analyze human interaction and culture, social organization and institutions, historical contexts, and/or complex interdependent systems.

B. Knowledge of the Natural World (NW)

Courses focus on concepts and applications related to the natural and physical sciences and mathematics.

C. Critical and Creative Thinking (CC)

Courses extend students' abilities to analyze issues and produce responses that are both logical and innovative.

D. Effective Communication (EC)

Courses support and assess students' development of reading, listening, speaking, information literacy, and/or writing proficiencies.

A student must complete:

1. UWX EN102 (3 credits) with a grade of C or higher. (Note: Depending on English placement, you may be required to take UWX EN101 as a pre-requisite for UWX EN102. Similarly, depending on English placement, you may be required to take UWX EN098 prior to enrolling in UWX EN101).
2. Three (3) additional credits of EC coursework.

E. Intercultural Knowledge and Competence (IK)

Courses prepare students to live and work in diverse contexts. Courses with this degree designation focus on building cross-cultural communication, interaction, and empathy with people from diverse backgrounds and cultures.

F. Individual, Social and Environmental Responsibility (ER)

Courses provide the foundation for lifelong learning and the intellectual tools for engaging ethically as members of society.

V. Depth Requirement

The UW System Associate Degree Standards require each student to complete "a two-course sequence in which the first course provides the foundation for the second." This requirement is fulfilled by taking a disciplinary depth sequence identified by the program. One or both courses may be transferred in from another institution.

Sets of courses in a depth sequence must meet the following criteria:

1. Both courses are at least three credits.
2. Learning from the first course lays a foundation for learning in the second course. However, the foundation course does not need to be a prerequisite for the second course.
3. The depth requirement does not include skills courses that lay a foundation for academic literacy (UWX MA091, UWX MA093, UWX EN098, and UWX EN101).

The following sequences satisfy the Depth Requirement: UWX AR104, UWX AR175; UWX BL101, UWX BL285; UWX BL285, UWX BL286; UWX BU101, UWX FN210; UWX BU101, UWX EN210; UWX CM114, UWX CM213; UWX EC203, UWX EC204; UWX EN250, UWX EN278; UWX GE100, UWX GE170; UWX GS101, UWX GS231; UWX HE106, UWX HE209; UWX MA116, UWX MA221; UWX PH121, UWX PH237; UWX PS101, UWX ED230; UWX PS101, UWX PS250; UWX SC101, UWX SC222; UWX SC101, UWX SC231; UWX SC222, UWX SC231; UWX SP101, UWX SP102.

VI. Quantitative Literacy (QL)

A student must complete a minimum of three credits of QL coursework, i.e. UWX MA108, UWX MA116, or UWX MA117 with a C or better. Quantitative literacy courses may fulfill breadth and depth degree requirements.

VII. Laboratory Science (LS)

A student must complete at least one laboratory science course. LS courses normally fulfill a general education breadth requirement. In laboratory science courses, students engage in empirical study of the natural world to enhance learning.

VI. Ethnic Studies/Diversity

A student must complete three credits of Ethnic Studies/Diversity coursework. Courses fulfilling this requirement have a substantial emphasis on cultural diversity issues and ethnic minorities within the United States.
