Procedures Required for Graduation

Obtain admission to the degree program and/or the College offering it.

Apply for graduation on CampS.

1. Certain programs exceed this minimum.
2. See special requirements in each College.

Applicability of Credits Toward Graduation

Junior College or Two-Year College Credits. A maximum of 72 semester credits earned in a junior college or two-year college will be accepted as degree credits at UW-Eau Claire.

Extension Credits. Credits earned in credit outreach courses offered by UW-Eau Claire are treated as resident credits. Credits earned in extension courses offered by other units of the University of Wisconsin System are treated as transfer credits. All other (non-UW) extension and correspondence credits are normally limited to one-fourth of the total required for graduation from any curriculum.

WTCS Credits. A maximum of 72 semester credits earned in college parallel programs at Madison Area Technical College, Milwaukee Area Technical College, Nicolet Area Technical College, or Chippewa Valley Technical College may be accepted as degree credits at UW-Eau Claire. A set number of general education courses will be accepted from other technical schools. Occupational and technical courses may also be considered for transfer if the quality and content of the course work from the technical college is judged to be comparable to course work at UW-Eau Claire. Refer to the Transfer Credit Wizard (https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRDWZ.GBL) or contact the UW-Eau Claire Admissions Office for information about the current transfer policy.

USAFI Credit. UW-Eau Claire will accept up to 32 semester credits for work done through the United States Armed Forces Institute, under the provision for non-UW correspondence credit (see Extension Credits above).

Activity Credit (band, chorus, drama, KINS 100-184 courses). Students may count toward graduation no more than one credit of KINS 110-184 courses. Students may count toward graduation no more than four credits earned in any single activity course and no more than 12 credits resulting from any combination of activity courses (excluding KINS 110-184 courses).

Other Restricted Credits. For other University restrictions, see the following: Cooperative Education; Credit by Examination; Satisfactory/Unsatisfactory Registration; Transfer of Credits. College or departmental restrictions may also be placed on Independent Study (399-499 courses), Directed Study (395-495), and other types of credits.

Liberal Education Core

The University of Wisconsin-Eau Claire measures learning outcomes to ensure that its graduates have achieved a liberal education and prepared themselves to contribute to a complex society. Upon graduation, each undergraduate will have met the four learning goals of our liberal education core and the 11 learning outcomes they comprise.
LIBERAL EDUCATION CORE REQUIREMENTS

Knowledge Goal

Knowledge Outcome 1 (K1): Natural Sciences
One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 2 (K2): Social Sciences
One experience in laboratory science must be selected from either K1 or K2.

Knowledge Outcome 3 (K3): Humanities

Knowledge Outcome 4 (K4): Fine Arts
One (1) learning experience

Skills Goal

Skills Outcome 1 (S1): Written and Oral Communication
One S1 must meet the University Writing Requirement

Skills Outcome 2 (S2): Mathematics
One S2 to meet the University Mathematics Requirement

Skills Outcome 3 (S3): Creativity
One (1) learning experience

Responsibility Goal

Responsibility Outcome 1 (R1): Equity, Diversity, and Inclusivity
One R1 must satisfy Design for Diversity

Responsibility Outcome 2 (R2): Global Perspectives

Responsibility Outcome 3 (R3): Civic and Environmental Issues
One (1) learning experience

Integration Goal

Integration Outcome 1 (I1): Integration
Two (2) learning experiences

Service-Learning Goal

Service-Learning

College Degree Requirements

Bachelor of Science in Environmental Public Health

Bachelor of Science in Environmental Public Health Degree in the College of Arts and Sciences (B.S.E.P.H.)
Fulfillment of all University Graduation Requirements (which includes the Liberal Education Core); all College-level degree requirements (major and minor/certificate emphases, GPAs, earning at least 90 credits in Arts and Sciences course work).

Major Requirements

(Code 640-001)

Practitioners in the field of environmental public health control environmental health hazards and preserve and improve environmental factors for the achievement of optimum health, safety, comfort, and well-being. Students gain the educational background necessary to appreciate cultural values and inform decisions that impact human environmental health. Graduates are employed in regulatory agencies and industries concerned with environmental quality and the public’s health. This comprehensive major includes both foundation classes in biology, chemistry, physics, and mathematics, and specialized courses in environmental and public health, such as food and water sanitation, air pollution, industrial hygiene, and environmental toxicology.

Mission

The Environmental Public Health (ENPH) major provides undergraduate students with a comprehensive understanding of science and its application to protect human environmental health. The degree prepares students for careers as Environmental Health Professionals and safety specialists, integrating a scientific background, technical skills, and professional ethics.

Goals

The ENPH major strives to prepare graduates with the knowledge, awareness, and skills to:
1. Understand the natural world through applied chemistry, biology, physics, and mathematics;
2. Identify short- and long-term hazards to human and environmental health through critical thinking;
3. Serve the public by addressing human health risks through research, communication and intervention;
4. Identify and address cross-cultural, economic, and technological barriers to serving public health interests; and
5. Demonstrate professional ethics, values, and responsibility in all areas of practice.

Scholarships
Several scholarships are available to students in the ENPH major. Additional information may be obtained from the faculty or by visiting the Financial Aid Website. Students are invited to participate in the Student National Environmental Health Association, the goal of which is to improve the health and well-being of people by focusing on environmental public health issues and to provide students an introduction to professional organizations.

Practicum/Internship
A practicum or internship experience is an integral part of the Environmental Public Health major, and an important component of preparation for career or graduate school. This off-campus internship or practicum is a full-time work experience with a health-related agency or industry, typically taken during the summer between the junior and senior year.

Bachelor of Science in Environmental Public Health (B.S.E.P.H.)
The B.S.E.P.H. degree is accredited by the National Environmental Health Science and Protection Accreditation Council. Graduates are prepared to take the National Environmental Health Association exam for the Registered Environmental Health Specialist/Registered Sanitarian credential.

ENPH Major Requirements
Minimum sixty-two semester credits, including:

Core Science Courses (included in the ENPH Major Designation)
BIOL 151 Biology of Humans 4
BIOL 221 Foundations of Biology I 4
CHEM 213 Quantitative Analysis 4
CHEM 325 Organic Chemistry I with Laboratory 4
And select one of the following two courses:
BIOL 250 Microbiology 3
BIOL 361 Biology of Microorganisms 5
Elective: One course selected from:
ENPH 115 Global Environmental and Public Health 3
ENPH 225 Introduction to Public Health 3
ENPH 291 Special Topics 1-3
GEOG 135 Introduction to Geospatial Analysis 3
GEOG 178 Conservation of the Environment 3
BIOL 180 Environmental Biology and Conservation 3

Core ENPH Courses (field trips required in some courses)
ENPH 110 Introduction to Environmental Health 3
ENPH 422 Radiation, Air Pollution and Health 3
ENPH 432 Preparation for Practicum 2
ENPH 435 Practicum in Environmental Public Health 3
ENPH 441 Water and Wastewater 3
ENPH 443 Microbial Safety of Food 4
ENPH 445 Hazardous and Solid Waste Management 3
ENPH 450 Epidemiology 3
ENPH 460 Fundamentals of Industrial Hygiene 3
ENPH 464 Occupational Safety Management 3
ENPH 476 Vector-Borne Disease Control 3
GEOG/ENV 377 U.S. Environmental and Sustainability Policy 3
ENPH 490 Environmental Toxicology and Risk Assessment 3

Other requirements outside the major
MATH 108 Earth Algebra
or
MATH 109 Algebra for Calculus
or
MATH 117 General Mathematics
Competency to enter MATH 111 A Short Course in Calculus
MATH 246 Elementary Statistics 4
CHEM 103 General Chemistry I & CHEM 104 General Chemistry II 8-9
or CHEM 105 General Chemistry I Lecture & CHEM 106 General Chemistry II Laboratory
or CHEM 109 General Chemistry II with Lab
PHYS 211 General Physics 5
PHYS 212 General Physics 4

Electives: One course selected from:
ECON 268 Environmental Economics
GEOG/ENV 378 International Environmental Problems and Policy
CJ 307 Small Group Communication
PHIL 306 Ethics of Health Care
PHIL 320 Environmental Ethics
POLS 346 Public Policy in the United States

Satisfactory/Unsatisfactory Policy
The only credits that may be earned under the Satisfactory/Unsatisfactory option are for Independent Study. S/U credits may not total more than three.

Internship
An internship or practical experience is a requirement for the B.S.E.P.H. degree. Typically between the junior and senior year, each student is required to enroll in three credits of summer practicum (ENPH 435) and pay fees to the University. Students anticipating enrollment in the practicum should notify the Environmental Public Health faculty no later than February 1, and enroll in ENPH 432 the spring semester prior to their summer practicum.
